

# CRT-591-T

## Triple Cassette Dispenser

Item	Specification	
Dispensing method	selectable to dispensing cards from specified cassette	
Read /write function	Mag-stripe card / IC card read and write	
Speed	<3.5 sec	
Cassette capacity	3*100pcs, every cassette capacity is 100pcs (flat card)	
Capture cassette capacity	>=30pcs (flat card)	
Interface	RS232 : standard DB9	
User experience	<ul style="list-style-type: none"> <li>◆flexible card supplement, easy for integrated cards supplement ◆the card output obviously, easy to take.</li> <li>◆independent capture cassette design, easy to manage the cards ◆clear and quick trouble shooting ◆module design</li> </ul>	
Module security and reliability	<ul style="list-style-type: none"> <li>◆anti-turning, anti-tilt cassette design ◆independent security lock for card cassette and capture cassette for antitheft and bank management</li> <li>◆ATM high security standard design ◆Dust-resistant design for harsh environments</li> </ul>	
Module status checking	<ul style="list-style-type: none"> <li>◆cassette detecting ◆card pre-empty / card empty detecting</li> <li>◆capture cassette full detecting ◆transporting way status detecting</li> </ul>	
Power supply	24VDC±10%	
Condition	Work temperature	0℃~55℃
	Work humidity	5%~90%RH(no condensing)
	Storage Temperature	-25℃~70℃
	Storage humidity	0%~95%RH((no condensing)
Maximum power	35W (average) \ 50W (peak)	
Weight	5KG (including card reader)	
Dimensions	490mmx 340mmx 216mm (LxWxH)
